ON-THE-JOB CARDS

The CleanCheck job cards allow employees to perform each cleaning step with confidence when they're ready to clean by themselves. Housed with dual rings, you can easily separate and customize your card set based on which employees will need which job cards depending on their cleaning tasks. Employees can simply check off each step as it's completed with the provided erasable pen. CleanCheck job cards follow the procedural instructions covered in the video modules and manuals.

Cards are bilingual (English on front, Spanish/French on back)

COLOR-CODED PRODUCT CATEGORIES

CleanCheck utilizes color-coded product categories to identify which products are right for the job. Displayed as colored/numbered dots throughout the videos, cards, and manuals, CleanCheck includes corresponding stickers that can be applied to the actual product containers so there is a direct association between each chemical and the cleaning category identified in the training and CleanCheck job cards. This provides more assurance that the right product is used for each cleaning challenge.

ONLINE TESTING, TRACKING, AND CERTIFICATION

When training is complete, you can reward employees for a job well done. Online testing is available and provides track-able results for each employee. Test questions focus on the basic concepts, while correct answers facilitate success and professional workmanship. Personalized certificates with employee name and area mastered are available upon completion of each module. These certificates can be printed for compliance documentation and presented to employees.
